A day in the core of the motor valley, accompanied by specialized guides discovering the historical brand of Lamborghini and home-made tortellini. Two emblematic expressions of Made in Italy.

The factory: Automobili Lamborghini Established in 1963, located in Sant'Agata Bolognese, in northern Italy. With more than 130 dealers worldwide, in a half century Automobili Lamborghini has created a continuous series of dream cars which includes 350 GT, Miura, Espada, Countach, Diablo, Murcielago and limited series such as Reventón, Sesto Elemento e Aventador J; Veneno Coupé, Egoista e Veneno Roadster have been made to celebrate 50 years of the company in 2013 while the Centenario celebrates 100 years since the birth of Ferruccio Lamborghini.

The factory and museum

The origins with Ferruccio Lamborghini and his early successes: 350GT and Miura, the main models from then until now, the race cars including the Formula 1, the great milestones of technological evolution: 4wd, aluminum, carbon, hybrid. Motors like jewels, the new Lamborghini Urus. And more to understand how magic and passion have met in Sant'Agata Bolognese, in the earth of the Motor Valley.

The historical pole of the company guarantee the preservation and the integrity of the history of Lamborghini and of its cars that are almost 10.000 in the first 40 years of activity.
